

Proposed Mission Statements

Rick Diebold

Through establishment of a comprehensive Master Plan for land use and supportive zoning regulations the Planning Commission will frame future development of Banks Township that is environmentally sound, economically viable, and socially responsible, while preserving the valuable land and water resources that make Banks Township's rural character unique.

Don Miles The mission of the Banks Township Planning Commission is to meet economic, social, and environmental challenges through thoughtful land use planning while protecting the natural resources and rural character of the township through development and refinement of zoning requirements. The Planning Commission's actions shall promote the health, safety, and welfare of permanent and seasonal residents as well as visitors.

Julie Waterman: The mission of the Banks Township Planning Commission is to advise and make recommendations to the Banks Township Board of Supervisors on issues of land use, land development, subdivision, ordinance amendments, recreation, zoning and the Master Plan in order to meet the current and future needs and interests of Banks Township residents and visitors.
